PRINCIPAL'S MESSAGE

Though this is the first year for Armour Heights, we, of the school, both scholars and teachers, I am sure, feel as though we have been of one group for a much longer period. The ease with which the scholars have come together and worked in the interests of the school and the friendly spirit apparent among the members of our staff have been outstanding features of our inception. We of the school are not alone in this. You of the surrounding community have, through the Home and School Association, and through your excellent co-operation, contributed greatly to this feeling.

The name, Armour, reminds us of the first schoolmaster of the early government school in this city and takes us back much further than September, nineteen fifty-three. However, the modern school and equipment, provided for our use, give us all the advantages of a new school though, at the same time, we like to cling to a traditional atmosphere.

To you, the scholars, who have supported our venture into journalism in your usual enthusiastic manner, may I express the hope that, as you attack the many problems great or small which the future holds in store for you, you may face them in the confident, patient, and thoughtful manner in which you helped your teachers organize a programme and build a foundation for education at Armour Heights. You are the school. We, of the staff, are but your guides providing you with opportunities in ideal surroundings.

W. L. McNeil

A MESSAGE FROM HOME AND SCHOOL

It is indeed a pleasure for me, on behalf of the Home and School Association, to express our appreciation of the efforts of those who in any way have contributed to the success of this your first school paper.

May I pass along our sincere thanks to the editor and his staff of able assistants, who have taken the initiative and responsibility of preparing this very commendable edition. I trust there will be many such publications and the experience gained in this your first attempt will undoubtedly improve future issues.

Keep your standards high at all times and the very best of luck to you all.

EDITORIAL

This year we are presenting you with the first edition of the "Armour Happs". You are probably wondering where we got the name for our paper. "Armour" of course, is taken from the first name of our school, and "Happs" comes from the first letters of the word Heights

I wish to thank Mr. McNeil and the staff who have helped to make our paper possible. We have enjoyed publishing this paper, we hope we have your approval.

SAMUEL ARMOUR by Carole Parnell, Grade 6

Mr. Armour was born in Ireland in 1785. He obtained his Master of Arts Degree at Glasgow University. He became a minister in Scotland and married Margaret Douglas. He came to Canada in 1820 and took up his work at York. In 1826 he was ordained by the bishop as a rector of the church of England. He came to Peterborough in 1826 and became headmaster of the government school in this city. He was the first rector of St. John's Church. Because of his ill health, he resigned as headmaster of the school in 1832. Later he became rector of St. John's Church in Cavan where he spent a number of years.

MY NEW SCHOOL by Robert Ainsworth, Grade 2

In the playroom I like to play Dodge Ball. I like the children too. In the mornings we hear stories which I like.

MY NEW COUNTRY by Winny Overvliet, Grade 4

When I came from Holland I first thought I didn't like Canada, but I soon found out that was not so. When I came to Peterborough I went to King George School. When I moved, I came to Armour Heights School. I'm still at it now. I like the beautiful tulips, and I think it is the best school in all of Peterborough.

S A F E T Y P A T R O LOUR SAFETY PATROL

Our aim is to protect small children from getting killed. Already the number of accidents in the city is less since we started having patrols. Patrols try to be on duty at the right time and small children should not cross until the patrols are there. We have a safety court every Tuesday, at 10:30 to punish offenders. The Paramount Theatre gives a free show for all patrols once a month. The City is giving a free trip to Ottawa to the captain and the best patrol in each school. We are getting a picnic at the end of the year. by Barbara Tice, Grade 5.

MY TRIP TO OTTAWA - by Brenda Elliott, Grade 6

On Wednesday June 2nd, 32 Patrols went to Ottawa for a tour. We started for Ottawa at 7:00 in the morning by bus. We reached Ottawa at 11:30. We went from there into the Parliament Buildings. When we entered, we had Mr. Saint Laurent and George Drew as guest speakers. We then had our lunch.

After lunch we went up to the peace tower and looked over Ottawa. When we came down the elevator, we saw the largest bell in the Parliament buildings which weighed eleven and a half tons. We visited the memorial centre in the Parliament Buildings. There is a book of names there which has over sixty-six thousand names of men who were killed in world war one. We then went over to the R.C.M.P. station at Rockcliffe where the mounties were doing their drills. After that we went through the R.C.A.F. Station and saw many planes. After supper we started for home. We reached home at 11:30 at night. Thanks to Constable MacKay and Miss Merritt, we had a wonderful time.

S T O R I E S

MY DOG by David G. Corp

On April 13, 1952, as I was sitting on the front step of my home, I saw a big express truck coming down the street. I didn't pay much attention to it, but when I saw it stop right in front of our house, I ran into the house yelling for my mother to come quick. After my mother stood at the front talking to the man for a while the man gave her a box. When we got into the house, my mother opened the box and in it sat a little puppy who could hardly walk. Right away I decided to call him Rover.

Rover was a little clumsy at first but he learned fast. He learned to do many tricks and we always went to the woods to play tag, and hide and seek. We used to go to the lake and swim and have fun together. After we had finished having our fun, we would have a little lunch, a sandwich for me, and a bone for him. Rover was always being chased by a skunk or a porcupine. As Rover got older he didn't play much and just began to sit around and do nothing. Rover died at the age of twelve. Our house is not the same without Rover. THE END.

When he came back they put it up against the tree. Jim climbed up and got it. When he reached for it, it was all broken and Jim said, "I will not be able to fly my kite any more this year."

MINDING THE BABY by Joy Elliott, Grade 4

My sister and I love minding the baby. We bathed her and put her to bed. Then later on we went into her room but she wasn't there. We looked all over the house for her. At last we found her climbing into the cupboard eating cookies out of the cookie jar.

P O E T R Y

TWO ROBINS by Harold Dinesen, Grade 5

I saw two robins in a tree,
And they were busy as they could be,
Building a nest of grass and string,
They were happy because it was spring.

Four eggs of blue would soon appear,
And father bird would stay quite near,
To guard the mother and their nest,
And bring her food he'd do his best. (Cont'd next page)

When little birdies broke the shell,
He'd help the mother raise them well,
He'd help her teach them how to fly,
And keep his eye on them near by.

So if you like the birds to sing,
Don't touch their nests when it is spring,
They'll fly away and leave their home,
And farther on will have to roam.

THE WINTER by Doug Pammett, Grade 5

In the winter time we go
Walking in the fields of snow;
Where there is no grass at all,
Where the top of every wall,
Every fence and every tree,
Is as white as can be.
And our mother always know,
By the footprints in the snow,
Where it is their children go.

A RHYME by Brian Neck, Grade 4

There was a window pane,
That flew all the way to Spain,
It landed in a drain,
And was never seen again.

MY MONKEY by Georgina Moore-Gough, Room 2, Grade 4

Once I had a little monkey
Who was as funny as she could be,
One day my monkey was so happy
She jumped right over a tree.

EASTER - Grade 2, Room 3

At Easter time we have great fun,
We like to eat warm hot cross buns,
We run down stairs,
Look under the chairs,
To find the chocolate Bunny.

SALLY'S DUCK - Original Verse, Grade 1, Room 5

Sally has a little pet
It is happy when it's wet,
It has feathers on its back
When it talks, it says, "Quack, quack."

SPRING - Room 5, Grade 1

We are happy in the spring,
When flowers grow and robins sing;
When kites are blowing on a string,
And the sun shines on everything.

HALLOWE'EN - Room 5, Grade 1

Hallowe'en will soon be here.
Our faces will be sunny.
We'll dress like witches, clowns and ghosts,
Oh, my! Won't we look funny?

FOR MOTHER'S DAY -Grade 1, Room 4

Mother, mother, you are tall,
I love you the most of all.

OUR CHICKS - Room 4, Grade 1

They are our friends so dear,
We love to watch them pick and kick,
We love to hear them say, "Cheer Cheer."

Buss is a cute Bunny
I saw Buss eating carrots.
